

Welcome to RHI Magnesita's Onboarding Process!

RHI Magnesita's onboarding process is 100% virtual and done through our HR platform – CHRIS. In this document we will explain in more detail on how the platform CHRIS works and what information you can access through it.

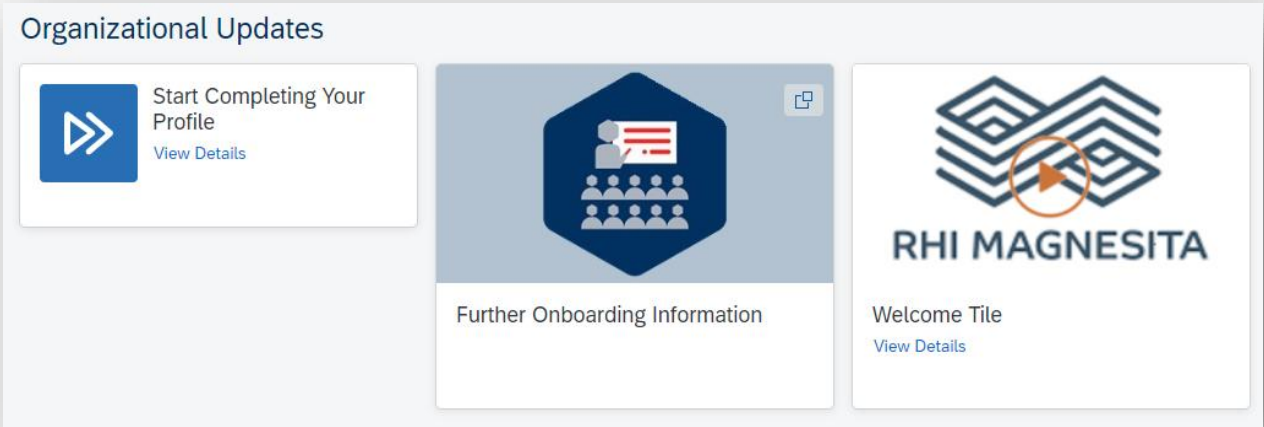

In the link you received via email you will be able to access the platform and reset your password.

To access, simply enter your e-mail and the defined password — if you have forgotten your password, just click on the question mark next to the field “Enter password”.

Once inside the platform, you will find two sections: one called “For you today”, which you will access after receiving a confirmation email, and a second called “Organizational Updates”.

Organizational Updates

Each tile will give you different information about the process. We ask you to go through all of them. Below you will find a little more detail about each one:

Welcome!: here you will find a video that will teach a bit more about our company

Further onboarding information: here you will have access to interesting additional information to get started with us, such as the link to our website and corporate video.

TIP

Keep an eye out for your email! new tiles with new information will be added along your onboarding journey and you will be notified whenever one is added.
